PROFESSIONAL SUMMARY

Data Analytics graduate skilled in SQL, Excel, Power BI, and Power Query. Experienced in data cleaning, dynamic dashboard development, and business reporting. Adept at transforming raw operational datasets into actionable insights to guide decision-making.

TECHNICAL SKILLS

- **Database:** SQL (DDL, DML, Joins, Subqueries, CTEs, Views, Window & Aggregate Functions, Normalization)
- **Tools:** Microsoft Excel, Power Query, Power BI, SQL
- **Data Preparation:** ETL, Data Cleaning, Data Validation
- **Reporting & Visualization:** Dashboard Design, KPI Reporting, Pivot Tables, Data Visualization

PROFESSIONAL EXPERIENCE

Data Visualization Intern — Decodet Technologies, Coimbatore, Tamil Nadu (*May 2025 – June 2025*)

- Developed interactive dashboards in Excel and Power BI to track operational KPIs and performance metrics.
- Automated data cleaning and validation using Power Query, improving business reporting accuracy.
- Designed analytical reports for stakeholders to facilitate data-backed strategic decisions.
- Gathered business reporting requirements to deliver tailored visualization tools.
- Earned leadership recognition for delivering high-quality dashboard solutions within project timelines.

PROJECTS

E-Commerce Orders Dashboard | Microsoft Excel | | Power query |

- Built an interactive sales dashboard using Pivot Tables, slicers, conditional formatting, and charts.
- Analyzed sales performance across regions, customer segments, product categories, and monthly trends.
- Tracked revenue, customer activity, discounts, and product returns through custom KPI displays.

ICC All Format Cricket Statistics Dashboard | Power BI | | Power query |

- Transformed and structured sports datasets using Power Query to establish an analytical model.
- Designed visual reports with filters and drill-through functionality to evaluate team and player metrics.
- Delivered insight dashboards analyzing match outcomes, batting statistics, and win percentages.

EDUCATION
